Office

Digital Class™ — DC7-Series

More Outstanding Features

- ✓ Just learn in 5 minutes
- ✓ PowerPoint Annotation — To run PowerPoint presentation on the program
- ✓ Capture Part Screen — To capture part of the desktop screen instead of the whole screen
- ✓ Thumbnail Preview — To preview the page content in a convenient way
- ✓ Customized Toolbar — To rearrange the function icons upon your own preference
- ✓ Object Graphic — To resize the image easily
- ✓ Short-cut Key — To have a quick access to the designated function

Write on All Applications

Digital Class™ enables you to write on all computer applications, such as lecture program, web page or any other MS Office Applications (PowerPoint, Word, Excel), etc.

Record, Download and Distribute at Anytime

All the details of the presentation are recorded in "motion capture" together with the presenter's voice for playback at any time. Export annotated pages can be in BMP or in JPEG format.

Smooth and Fine Writing Display

With perfectly smooth and clean pen-strokes, Digital Class™ insures a better quality script than those on the traditional whiteboard, which enables you to truly and completely display your immediate penmanship on the screen.

Easy and Instinctive Interface

Retrieve any files you want, just as you do when using your computer. Use the electromagnetic pen as the mouse of a PC, and write notes as naturally as you would on a piece of paper. This system is easy to use – within 5 minutes you are ready to go!

One Click into Different Templates

Digital Class™ has various backgrounds which customize the look of your presentation, such as blackboard, whiteboard, manuscript paper, music sheet, English notebook, or your own designed templates.

A Big Screen That's within Reach

Just touch the tablet to highlight the points you want to explain. Images can be projected onto any available size of screen. You can face your audience at all times, and now you can do it without being blinded by a projector beam and without your shadow being casted on the screen!

Specifications of Digital Class™
